## 3 reasons to hold your event/retrisal with us:

1

**We are a company specialising in hospitality** located in the region known as "Golden Triangle", full of services where large properties are concentrated, with large internal and external spaces, total privacy, nature and leisure in locations outside the area of greater urban agitation. That is, everything that retreats and events focussed on well-being ask for.

2

**We have a portfolio with a series of "Villas Guru", with several suites, which comfortably serve groups of 5 to 18 people,** with large rooms and spaces - which can be adapted according to the need for their use. In addition, all have a swimming pool, and outdoor spaces for dynamics and practises outdoors or in the middle of nature they offer. Some have a complete spa structure, cinema room, heated pool, gym, among other amenities.

3

**We have carefully selected services to provide everything you need for you and your group** and we accompany you in everything you need from the landing, whether in Lisbon or Faro. Reception at the airport, transfers, check in and checkout at the villas, daily cleaning, breakfast and meals carefully prepared by chefs according to the proposal of your event and what is needed.

# EXPERIENCE

**And how about including an immersive experience of relaxation, meditation or even unwinding on the open sea or on a little inhabited paradisiacal beach?**

We offer a selection of Yachts and Boats in which you can spend unforgettable hours, including drinks, snacks or even a chef on board to prepare a meal, leading the group to the most beautiful sunny landscapes and remote beaches of the Algarve where they can carry out practises and activities.

We have 20 years of experience, we know how to make your event something unforgettable and that will always be remembered as unique and transformative!
